

Eluna Honors Anne Bradbury at Capitol Hill Reception

Eluna was pleased to honor Anne Bradbury Chief Executive Officer, American Exploration & Production Council at our annual Capitol Hill Reception on Wednesday June 21. Anne has been a tireless supporter of our work, a six-year member of Eluna's Board of Directors, and co-chair of our pivotal Development Committee. Anne has been the driving force behind our Washington DC Reception, initiating and chairing the event on behalf of Eluna in order to recognize congressional champions of Eluna's work and to raise funds in support of Eluna's mission.

This special evening would not have been possible without our host and board member, Mike Robinson, Partner, Mehlman Consulting, and a crowd of DC luminaries who joined us in support of Anne and Eluna. Video testimonials were provided by current Speaker of US House of Representatives, Kevin McCarthy; John Boehner, Former Speaker of US House of Representatives; Steve Scalise, House Majority Leader (R-La.); and Henry Miller, Eluna Board Member, co-chair of the Development Committee, and Chairman, Odgers Berndtson.
