Created by [Pacer's National Bullying Prevention Center](#)

PACER's National Bullying Prevention Center actively leads social change, so that bullying is no longer considered an accepted childhood rite of passage. PACER provides innovative resources for students, parents, educators, and others, and recognizes bullying as a serious community issue that impacts education, physical and emotional health, and the safety and well-being of students.

PACER provides free, innovative web-based information, ideas and actions that can be shared in communities across the nation to address bullying. Resources include engaging websites designed just for students, literature for parents to help their children through bullying situations, classroom toolkits for educators, and much more.
